EDUCATION

Vellore Institute of Technology, Bhopal
Bachelor of Technology in Computer Science

Bhopal, MP
Sept. 2023 – Current

Rani Laxmi Bai Memorial School
Secondary Education (ICSE, Class 10) — 85%

Lucknow, UP
July 2020

Senior Secondary Education (CBSE, Class 12) — 85.6%

July 2022

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS, JavaScript, React

Frameworks: React.js, Node.js, Express.js, Next.js

Libraries & Tools: React Hooks, Git, VS Code, Chrome DevTools, Linux Terminal

PROJECTS

Hangman Game

GitHub

Web Development Project

React, Vite, JavaScript, HTML, CSS, JSON Server

- Developed an interactive Hangman game using React with dynamic word guessing and real-time feedback
- Utilized Vite for fast development and optimized build performance
- Implemented backend simulation using JSON Server to manage word datasets via REST APIs
- Managed game state including incorrect guesses, win/loss conditions, and letter tracking
- Designed responsive UI with clean component-based architecture for enhanced user experience

Movie Streaming Platform

Frontend Web Development Project

React, Vite, JavaScript, Tailwind CSS, TMDB API

- Built a movie browsing platform with dynamic content using TMDB API integration
- Developed a responsive UI with React and Tailwind CSS, featuring categorized movie rows and banner display
- Implemented search functionality with debounced input for efficient API calls and improved user experience
- Designed movie detail views with trailers, ratings, and overview using embedded YouTube content
- Integrated watchlist feature using localStorage for persistent user data management
- Optimized performance using Vite and component-based architecture
